The rate of exchange being always subject to fluctuation, it is difficult to arrive at a correct estimate of the gross revenue in Kaldars or Government currency.

### Tour of His Highness.

3 His Highness the Maharao Raja Sahib Bahadur went to Nenwa on the 3rd April 1906 and stayed there for about seven months. During his stay there, His Highness visited several outlying villages in the State and this tour of inspection was a source of great consolation to the agricultural population who much appreciated it.

On the 8th November 1906 His Highness returned to Bundi and enroute inspected the Neth and Takla tank works in course of construction under the supervision of Mr C J Smith, Irrigation Engineer.

On the 24th March 1907, His Highness went to Dugar to observe ceremonies of condolence (Matam-pursi) in connection with the death of the Jagirdar of that place, Maharaja Sambh Sheo Singhji. From Dugar His Highness proceeded to Nenwa on the 28th March and after a stay there for over one month returned to Bundi on the 24th May, touring through Ajitgarh, Ramgarh, Khatkar, and other villages on his way back.

On the arrival and departure of this distinguished visitor, a salute of fifteen guns was fired and all other ceremonies befitting his high rank were observed. The Political Agent came to Bundi on the occasion and returned to Deoli along with the Hon'ble Mr Richards.

Major H B Peacock, Political Agent, Kotah on his way to Kotah stayed here for the night on the 7th May, and left for Kotah next morning. On his arrival and departure a salute of 11 guns was fired.

Captain C M Goodbody, Agency Surgeon, at Deoli, visited Bundi on the 14th August 1906 and 26th April 1907 and after inspecting the Jail and Dispensary returned to Deoli

#### **Marriages and Deaths etc.**

5 During his stay at Nenwa, His Highness the Maharao Raja Sahib Bahadur contracted in the month of August 1906, two more marriages, one with the daughter of Thakur Himmat Singhji of Bhawad and the other with the daughter of Thakur Jugat Singhji of Phali, both Bhati Jagirdars of the Jodhpur State

6 On the 14th March 1907, the Jagirdar of Dugari, Maharaja Shambh Sheo Singhji, a near blood relation of His Highness the Maharao Raja Sahib Bahadur died at the age of 24. The Jagirdar left no issue, but His Highness having taken compassion and with a view to keeping the name of the Thikana in existence, placed upon the Gaddi of the Thikana, the third son Inder Singhji of the Maharaja of Junia

#### **Political Relations.**

7 The relations between the Darbar and the Government of India have been as cordial and friendly as ever, and the Darbar acknowledge with great gratitude the assistance received from time to time at the hands of the Government and its officers

During the year under report the office of the Agent to the Governor-General was held by the Honorable Mr E G Colvin, C S I, and during his absence on leave by Colonel C Herbert, Resident Jaipur, & that of the Political Agent Haroti and Tonk by Major R B Berkeley, all of which officers evinced deep interest in the welfare of the State and very kindly did all in their power to help it, for which the state tenders its most grateful thanks to them

#### **High Officials.**

8 Appendix I shewing the names of high officials as also the changes effected in the personnel during the year under report is attached herewith.

The reconstitution of the Council which was effected in the year 1905, has remained in force and each department of the Council under its separate member has worked well during the year

## **Chapter II.**

#### **Revenue.**

9 In addition to his duties as combined Revenue and Financial Member, Mokhamsingot Hanwant Singhji has held charge of the office of the Superintendent of Revenue and continued to look after that Department in a satisfactory manner

10 During the year under report there has been no land revenue Settlement and the rates of assessment fixed in 1878 remain unchanged and are reasonable

11 During the financial year Sumvat 1963, the land revenue realized amounted to 4,59,071 Rupees which when compared with the land revenue of Sumvat 1961, shows a falling off under this head, amounting to Rupees 53,749. The reason of this decrease is that in consequence of the bad effects of the famine of Sumvat 1962 upon the agricultural population, a large amount of land remained uncultivated. Large remissions of revenue having been made in Sumvat 1962, the land revenue in that year amounted to Rs 1,27,563 only and it is on this account that the year Sumvat 1962 has been omitted in drawing a comparison here in respect of land revenue.

12 No waste land was brought under cultivation during the year under report.

13 No new boundary case has been decided during the year under report.

### Chapter III.

14 Appendix II is attached herewith shewing the laws in force in the state.

#### **Military Force.**

15 Appendix III is attached herewith shewing the Military Forces maintained during the year under report.

The expenditure incurred in connection with the same during Sumvats 1962 and 1963 is shewn below.

„ 1963	..	. „	1,17,937	0	0
		Increase	.. Rs	11,820	7 0

This increase in expenditure is due to the fact that the Sumvat 1963 was the Hindoo Leap year in which there were thirteen months instead of twelve and thus payments had to be made for one additional month.

The Military Force maintained was employed during the year under report in furnishing escorts, guards of honor, in State processions, driving game for His Highness and for other Military purposes as necessity arose.

The infantry are armed with smooth bore Muzzle loading Muskets and bayonets, the cavalry with smooth bore Muzzle loading Carbines, Swords and Lances and the artillerymen with swords.

#### **Police.**

16 Lala Raghoob Dayal who was appointed as Police Superintendent in the year 1905 has continued to hold that office. The Police are divided into two main bodies, the city Police and the District Police, and their functions have been the same as they were in past years.

The building of the Jail is in a good situation, well ventilated and capable of holding 149 persons at the rate of 648 cft per each man. The Jail contains two separate wards, one for males and other for females. On the 16th August 1906 and 28th April 1907, the Jail was inspected by the Agency Surgeon, Captain C M Goodhody who was favorably impressed with the cleanliness of the Jail and the way in which things were managed.

The health of the prisoners has been fair and their character good. There were only two deaths, from fever and the other from swelling caused by debility, and there was no case of insubordination or transgression of Jail regulations among them.

The number of prisoner treated in the Jail and Kotwali Hospital is shewn in Appendix XXIII attached herewith.

# **Chapter IV.**

## **Rainfall weather and Crops**

23 The rainfall during the Sumvat 1963 (7th July 1906 to 25th July 1907) amounted to sixteen inches and fifty two and a half cents. Though owing to the bad effects of the famine of the past year Sumvat 1962, the area sown was not as large as ought to be which fact caused a falling off in the land revenue, the outturn of both the Rabi and Kharif crops was very good in consequence of timely rainfall. In the month of Sawan there was good rainfall but the next month Bhadon being almost rainless great anxieties were felt regarding agricultural prospects. However in the month of Asoj there was good rainfall amounting to 7 inches and 35 cents which being very opportune and timely saved the situation and the outturn of the Kharif and Rabi was very good in consequence. There was no distress in the State and the Sumvat 1963 to which this report refers should be called a good year.

Of course one regrettable incident happened at the commencement of the year, which was that on the 2nd July 1906 (this date was included in the past

year) there was a fall of about 12 inches of rain in twentyfour hours at Bundi and the same amount fell in the mofussil with little variations, causing damage to buildings etc

The “*Bund*” for the storage of water that were taken in hand at Neth and Takla as irrigation works and that were nearly completed suffered damage on account of this heavy rainfall, and the extent of the damage as reported by the Irrigation Engineer amounted to a little over Rupees 3,000/

Appendix XVIII is attached herewith shewing the rainfall for the Sumvat 1963

#### **Wages and Labor.**

24 During the year under report the labor market has been stationary and the rates have been as follows

Appendix XVIII attached herewith will show prices of different sorts of food grains for the Samvat 1963

#### **Forest.**

25 The working of the Forest Department has been usual The revenue from and expenditure on forest is given below

#### **Trade and Manufacture.**

26 The year Sumvat 1963 being a good year, there was a rise in the Import and export trade as compared with that of the past year The revenue from Customs consequently was on an increased scale The chief articles of export were Cotton, Zeera, Oilseeds and Opium etc while those of import were Sugar, piece goods, hardare, Jaggree, Rice and Kirânâ (dry fruits spices etc ) The following table shows revenue derived from customs

Sumvat			Revenue
1962	..	...	Rs 72,279
1963	.	..	„ 2,10,000
		<u>          </u>	<u>          </u>
		Increase	Rs 1,37,721

The customs schedule is attached as Appendix XXVI There were no local manufactures carried on to such an extent as might call for any special notice or remarks.

#### **Public Works Department.**

27 Appendix XIX is attached herewith showing the expenses incurred on P W D during the year Sumvat 1963

The two Irrigation Projects (Tanks at Neth and Takla) started in the year 1905 were completed in the month of May 1907 and the expenses incurred thereon, are shown below

	<b>Estimate</b>		<b>Actual Expenditure.</b>	
Neth	.	30,777	.	33,685 (Local coin)

#### **Post Office.**

28 There is only one Government Combined Post and Telegraph office at Bundi From Bundi the mail is sent to different Tehsil by means of Raj runners In the Tehsils there are no regular Raj Post offices but the Tehsil Moharir does postal work in addition to his own duties The expenditure on and income from Raj Post office is shown below

#### **Mint**

29 During the year under report, the amount of silver passed into and accepted at the State Mint has amounted to 3200 Tolâs

Owing to certain causes the chahrashahi currency is being withdrawn and replaced by the Katârshahi currency The conversion is in progress and this has led the Mint to be opened

#### **General Condition of the State and people.**

30 During the year under report the general condition of the people has been satisfactory and their health good

Though the year has been good, the condition of the state has not much improved This is due to the fact that the past year Sumvat 1962 being the worst possible year, several unpaid accounts of that year have had to be settled from the revenues of the year under report

The public health has been good, the prices of food grains low and the supply abundant.

The birth and death rates have not been unusual as will be seen from

Birth rate 8 6 per mille

Death „ 6 33 „

the figures given on the margin

The condition of the agricultural population has been fair though the effects of the famine of Sumvat 1962 still somewhat remain

The consumption of liquor and other intoxicants has shown some tendency to decline during the year under report, and revenue from this source has consequently decreased.

Appendices XV and XVI are attached herewith, showing the agricultural stock extant in the state and the revenue derived from liquor etc

## Chapter V.

### Revenue and Finance.

31 The charge of the Revenue and Financial Membership of the State Council has continued to be held by Mokhamsingot Hanootsinghji.

Owing to consecutive bad years, the financial condition of the state

Sumvat 1961	8,54,310	during the Sumvat 1963 has not been satisfactory, as will appear from the marginally noted table. Though the year under report has been good in every respect, the

Sumvat 1963	7,89,935

large deficit of the past year Sumvat 1962 in which His Highness the Darbar Sahib Bahadur had to remit for the benefit of the agricultural population, a greater portion of the state revenues, has caused a severe strain upon the resources and finance of the state

The deficit during the year under report as will appear from the annexed financial Statement Appendix XXII has been Rupees 2,92,980 This is due to the fact that several unpaid accounts of the past year were settled and the

Government Loan	Rs 1,08,923-9-8	balance of Government loan and unpaid instalments of tribute, shown on the margin, were paid into the Government Treasury during Sumvat 1963. The deficit was met by advances received on the state revenues and loans privately raised

Four instalments of tribute, due on	Rs

31st Jny 1907,	60,000	
		2,40,000-0-0
Total Rupees		3,56,848-0-3

Great endeavours are, however, being made to place the financial condition on a sound basis and if the next few years are good, the state hopes to be successful in its object

The arrears of revenue outstanding including all realizable assets amount to Rupees 4,77,361/- and the prospects of the recovery thereof depend on future good years

Below is given a table showing the Income and Expenditure for Sumvat 1963

38. The following table Shows the number of Kanjars settled in the State

The Kanjars whose residence was transferred in Sumvat 1962 from Village Bijeygarh to Village Dhanatri in Baroondhan Nizammat have continued to live in that Village quietly Owing to the habitual disinclination of this criminal tribe to take to cultivation there has been great difficulty in inducing them to cultivate the land allotted to them So the land cultivated by them was of small area and the outturn of the Crops raised was not sufficient to meet their requirements in consequence Under these circumstances they were fed at the State expense, the cost of which amounted to Rs 235/-
